## U.S. EPA To Hold Meeting On Valley Pike Environmental Concerns

RIVERSIDE -- The U.S. Environmental Protection Agency will hold a public meeting from 7 to 9 p.m., Tuesday, Dec. 10, at Stebbins High School to share findings on vapor intrusion in the Valley Pike neighborhood.

Staff from the Ohio Department of Health, Ohio EPA, and Public Health – Dayton and Montgomery counties will also attend.

The EPA says vapor intrusion occurs when underground pollutants give off dangerous gases that can rise up through the soil, seep into buildings through foundation cracks and holes, and potentially cause indoor air contamination.

EPA representatives will be on-hand to schedule house sampling visits.
